Warranty

BRP limited warranty covers the watercraft for one year.

*Electronic brake, neutral and reverse.

FISH PRO™ 155

Feature Highlights

A top-of-the-line navigation, charting and fish-finding system using CHIRP technology for high definition images.

Optimized for ease of movement around the entire watercraft, and for better comfort and stability when facing sideways.

A spacious, quick-attach fishing cooler designed for easy access and equipped with numerous convenient features.

Adds 11.5 inches to the back of the watercraft to increase stability, space, and storage capability.

Keeps you firmly planted, comfortable, and secure while fishing from a side position.

Gives superior trolling control at low speeds without using the throttle - simply set, maintain and adjust as needed.

Trailer (optional)

- Fully adjustable carpeted bunks (side-to-side/front-to-back) allow you to change bunk angles to fit all watercraft.
- Custom frame design requires less water to load and unload watercraft.
- Sealed maintenance-free wheel bearings for added peace of mind.

- All models are available with a galvanized frame for extended life in all weather conditions or in a painted black version, with or without marine jack.
- Move I Extended 1250 and Move II are also available in an aluminum frame, that delivers better corrosion resistance to significantly extend life of trailer.

Aluminum MOVE II

Aluminum MOVE I Extended 1250
